STRUCTURES UP TO 50' WIDE X 16' HIGH AT ANY LENGTH

(t): 604.589.4280

(f): 604.589.4202

www.easybuild.ca

Surrey, BC

Easy Build Structures pre-engineered 2" x 3" galvanized steel framing system uses an unique "slip-fit" design that simplifies the installation process with the added strength and durability to withstand our Canadian winters. Whether you are looking for roof-coverage only to protect your fleet and equipment or fully-enclosed garage packages for workspace or storage, Easy Build Structures has the building for you.

Our sales team will work with you to customize your structure package to meet all your requirements. Easy Build packages come complete with everything you need, ranging from overhead and man doors, windows, insulation options, sheeting and flashing colours, and hardware. Our structure widths range from 10' through 50' with the length being as long as you need.

Take advantage of our full installation services throughout the Lower Mainland, including complimentary on-site consultations to fully design your custom structure. Furthermore, all our building packages are designed as do-it-yourself kits with a step-by-step installation manual.

Our engineer can provide you with stamped and sealed drawings, schedule B and C-B, and site inspections to help assist you with any permitting processes required by your municipality. These services also come with our CSA-A660 certification for pre-engineered steel structures in Canada.

Message from the Resource Connector North Board of Directors

A YEAR OF CHANGE

The last year has been a tumultuous one in many respects.

Massive fires throughout the summer hit the economy hard. It will take years to recover from the devastation they left behind.

We saw natural gas shortages, due to the supply issue that arose from the pipeline rupture in Prince George.

Pipelines have been rejected/purchased by government, leading to future uncertainty in this sector.

On the forestry front, fluctuations in lumber prices in B.C. saw prices hit almost record highs, only to fall to almost record lows.

Metal prices have followed suit and continue to fluctuate, although there appears to be more strength in the mining industry at the moment.

On the good news front, the \$40 billion LNG Canada project has been confirmed. This will lead to a booming construction boost for the north. BC Hydro's Site C construction project continues to fuel the economy of the Peace River area with jobs and demand for services.

Closer to home, we're happy to report that 2018 saw the launch of RCN's new website. The new site provides more opportunities to access information, connect, review upcoming activities, list corporate information, advertise – and more. Visit <https://resourceconnector.ca> to review the site first hand.

THE YEAR AHEAD

While 2018 may have been a year of ups and downs, 2019 is shaping up to be a year of potential. There is promising growth ahead for the construction industry. There is a chance to rebuild and restructure in the lumber industry. And there is steady growth projected for the mining sector, with a couple mines looking to reopen.

Other news for 2019 is RCN's continuous focus on improvement. Moving forward, RCN remains committed to improving B2B connections. Our board continues to be strong and will hopefully become stronger still, as new volunteers come forward to offer their support. As always, we welcome those who can help shape the future of RCN.

The next year promises to be an interesting one and RCN remains committed to helping you navigate your way.

Here's to success in 2019 – and beyond.

MISSION STATEMENT – To promote economic growth in the natural resource sector for the benefit of all British Columbians.

VISION AND POSITIONING STATEMENT – We serve business and industry related to natural resource development. We are a conduit of connectivity between business and natural resource sectors by:

- DELIVERING services and products;
- CREATING an environment of exchange of trade; and
- SUPPORTING investment in Northern B.C.

The Explorationist's Best Friends

Reliable, Hi-Performance Land Mineral Surveys - Geometrics® G-859 AP
Hybrid-Source Magnetotellurics - The Stratagem EH4

The G-859 AP is a Professional Magnetic Mapping System for Minerals, Petroleum and Geologic Surveys.

This rugged, high-quality cesium vapor magnetometer offers the best total field magnetic survey tool available. G-859 AP graphical interface makes design & data acquisition quick and efficient. Alternatively, the integrated Novatel Smart Antenna™ GPS may be used for mapping positions automatically.

The G-859 Advanced Pack affords a comfortable, ergonomic design used by the military to provide comfort and ease of use for all body types. Our batteries are specially compensated to minimize the magnetic signature. The G-859 is ideal for rapid, high-resolution mining, petroleum, and geologic exploration surveys, as well as academic research and local environmental studies.

See our Airborne & Base Station Magnetometers

Stratagem EH4 - Mineral Geophysical Exploration 10 to 300 Meters & More - Fast, Precise, Reliable

The Stratagem's hybrid-source technique combines natural MT signals with man-made transmitter signals to acquire reliable and complete data for exploration, surveying and geological structure mapping.

PROVEN ACCURATE RESULTS FOR:
Gold, Silver, Copper, Cobalt, Nickel, Diamonds, Platinum, Metal Sulfides and Much More

CR METAL FABRICATORS CR METAL LINER

TRUCK BOX LINERS

CR Metal Fabricators has developed the most rugged, heavy-duty pick up box liner in the industry!

Check out our features & for more information, please call!

- Fabricated from 3/16" thick aluminum plate
- Every seam is continuously welded
- 2" HSS tube reinforcement at tailgate opening
- Integral tailgate attached to the liner with 6" greasable hinges
- Powder coated latches
- Removable cab guard with rear-facing cargo/back-up lights
- Welded tie-down tube rails
- Optional rear carrier rack
- Quick and easy installation
- Models available to fit all common full-size pick-ups

**HEAVY DUTY
LOCKING STEEL LATCHES**

**CAB GUARD AND
CARGO LIGHTS**

**WELDED TIE-DOWN
TUBE RAILS**

Calendar of Events – 2019

January 29-30, 2019

Cantech Investment Conference
Toronto, Ontario

January 20-21, 2019

Vancouver Resource Investment Conference
Vancouver, British Columbia

January 22-24, 2019

BC Natural Resources Forum
Prince George, British Columbia

January 22-24, 2019

51st Annual Conference of the Canadian Mineral Processors
Ottawa, Ontario

January 28-31, 2019

Mineral Exploration Roundup 2019 (AME/BC)
Vancouver, British Columbia

March 3-6, 2019

PDAC 2019 International Convention, Trade Show and Investors Exchange – Mining Exploration Investment Show
Toronto, Ontario

April 9-10, 2019

32nd Annual Kamloops Exploration Group Conference and Trade Show
Kamloops, British Columbia

April 28-May 1, 2019

Canadian Institute of Mining, Metallurgy & Petroleum (CIM) Exhibition and Conference
Montreal, Quebec

May 22-24, 2019

Minerals North 2019 Conference
Chetwynd, British Columbia

TBD

Mine Water Solutions Conference 2019
Vancouver, British Columbia

June 16-21, 2019

Resources for Future Generations 2019
Vancouver, British Columbia

October 23-24, 2019

XPLOR 2019 – Quebec Mineral Exploration Convention – Quebec Mineral Exploration Association (QMEA)
Montreal, Quebec

TBD

Central Canada Mining Exploration Convention
Winnipeg, Manitoba

October 8-10, 2019

Coal Association of Canada 2019 Conference
Vancouver, British Columbia

November 17-20, 2019

Tailings and Mine Waste 2019
Vancouver, British Columbia

We Keep You Moving

YOUR SOURCE FOR CRITICAL MRO PARTS

Providing local support, repair services and premium products is what Applied does to keep your machinery moving. As a full-lifecycle distributor, Applied offers value-added services including **gearbox repair**, bearing repair, lubrication solutions, **full Hydraulic component repair and service** and technical expertise to support our comprehensive offering of world-class products.

***Supporting the products we sell –
that's the Applied difference.***

Contact us today and find out how
we can keep your production moving.

Find a location near your mine site
on our website at www.appliedcanada.com

EXPLOSIVES TRANSPORT BOX RENTALS & SALES

Explosive Transportation Trucks and Day Boxes

CR Metal Fabricators has developed explosive transportation boxes and bodies for the forestry, mining, road building and oil and gas industries.

They range from aluminum bolt-in boxes that fit in a pickup box with barrier laminate dividers between the explosive area and the detonator area, to complete carrier bodies fabricated from aluminum with barrier laminate dividers, accessory storage cabinets and drill steel carrier tubes. All meet Transport Canada requirements.

SUPPLY CHAIN CONNECTOR.CA

*Connecting central and northern BC suppliers and contractors
to projects within the region.*

NORTHERN INDUSTRIES INNOVATION FUND

Up to **\$50,000** in grant funding to a maximum of
50% of the eligible project budget

This program provides rebate funding for small and medium sized companies engaged in forestry, agriculture, mining, energy, oil and gas, manufacturing and supply chain activities related to these sectors. Applications are accepted on an ongoing basis.

The program supports applied research and development, new or improved products and services and testing of innovative equipment or technologies to support capital investment decisions.
